A WEBSTER STORY.

HOCKING

How a Lawsuit Was Won in New Hampshire. Daniel Webster was fond of a good story, and told a few illustrating early life in New Hampshire. One evening at a convivial party, where he and several distinguished lawyers were present, the conversation happened to turn on the legal profession. "When I was a young practitioner," said Mr. Webster, "there was but one man at the New Hampshire bar of whom I was afraid, and that was old Barnaby. There were but few men who dared to enter the list with him. On one occasion Barnaby was employed to defend a suit for a piece of land, brought by a little, crabbed, cunning lawyer, called Bruce. Bruce's case was looked upon as good as lost when it was ascertained that Barnaby was retained against gain the victory. The testimony for the plaintiff was very strong; and unless it could be impeached, the case of the defendant was lost. The principal witness introduced by the plaintiff wore a red coat. In summing up for the defense, old Barnaby commenced a furious attack on this witness, pulling his to the jury if a man who wore a red coat was, under any circumstances, to be believed. 'And who is this red-coat-ed witness?' exclaimed Barnaby, 'but a descendant of our common enemy, who has striven to take from us our liberty, and would not hesitate now to deprive my poor client of his land, by making any sort of red-coated state-

ment!" Whilst, however, Barnaby was gesticulating and leaning forward to the jury in his eloquent appeal, his shirt-bosom opened slightly, and Bruce accidentally discovered that Barnaby wore a red undershirt. Bruce's countenance brightened up. Putting both hands in his coat-pockets, he walked to the bar with great confidence, to the astonishment of his client and all lookers-on. Just as Barnaby concluded Bruce whispered in the ear of his client, 'I've got him-your case is safe;' and, approaching the jury, he commenced his reply to the slaughtering argument of his adversary. Bruce gave a regular history of the ancestry of his red-coated witness, proving his patriotism and de- first colony. votion to the country, and his charac-

[here Bruce made a spring, and, catching Barnaby by the bosom of the shirt, tore it open, displaying his rod flanuel], 'when Mr. Barnaby himself wears a red flannel coat concealed under a blue one?' The effect was electrical; Barnaby was beaten at his own game, and Bruce gained the cause.

> The Hare and Chipmunk. "I'm hurried to death." said the Hare, when the dogs were after him. to the Chipmunk, who begged that he
